

Rental concept for compressor installations

Are you looking for an addition to your current equipment, a temporary replacement or are you starting a project where you need a specific compressor or compressed air installation? Then we are happy to help you with our Easy Care rental concept. You can rent everything you need from us according to your own wishes. Think of our range of compressors, pipe systems, refrigeration dryers, compressed air receivers, buffer cylinders, etc. We take care of everything for you. We take care of the inspection and maintenance of the rented equipment for you. Inspection and maintenance does not only include the equipment, but the piping system is also checked for leaks and/or damage. Maintenance is carried out in accordance with factory specifications and adapted to the environment and/or user conditions.

In addition to a mounted installation, we also have a trailer available for rental. We can fully furnish these with the installation you require. Our mechanics will set up the trailer according to your wishes so that it can be used at any desired location. Ideal for projects of a temporary nature that still require a good installation.

No large-scale investments in your machine park

Rent for a fixed amount per month for the entire rental period, with no indexation taking place

No worries about maintenance, inspections and possible repairs of your rented product

After passing on a malfunction or defect by telephone, the solution is fully provided by CST

Replacement of the compressor, refrigeration dryer, filter installation or other components in the event of an emergency is included

1. Choose the rental concept that suits your company (A, B or C)

2. During the agreement period you are assured of our service in case of malfunction

3. Be assured of an up-to-date installation

A. Basic

- ✓ Suitable for both high and low pressure
- ✓ Work carried out by professional and authorized technicians
- ✓ 24 hour service with short response times, downtime is kept as short as possible
- ✓ No inspection costs
- ✓ Environmentally friendly disposal of residual material without additional costs
- ✓ Providing a compressor on loan free of charge in the event that repair cannot be carried out on site
- ! Maintenance is carried out by CST on the basis of actual costing, and is carried out at least once a year or more often, if the operating hours give reason to do so
- ! Costs for malfunction and repair are always for our account unless the cause of the malfunction or repair is caused by third parties
- ! Purchase of filter cartridges are at the expense of the tenant
